INTERSHIP EXPERIENCE

Cyber Security Intern

Kerala Police

May 2026 - June 2026 (1 Month) Aluva, Kerala

- Developed Call Detail Record (CDR) analysis tool.
- Performed detailed analysis of 2 real-world malware-based scam campaigns, evaluating attack techniques and security impacts.
- Participated in 3-Day cybercrime investigation training, gaining knowledge of digital forensics and evidence handling.

PROJECTS

EduCredChain, A Hybrid Blockchain-PKI Architecture for Educational Credential Verification [BTech Mini Project]

Team Size - 3, Role: Backend & Blockchain Development

December 2025 - May 2026

- Engineered a hybrid Blockchain-PKI solution that reduced Ethereum gas consumption by 79-82% using a hybrid on-chain/off-chain architecture storing only SHA-256 hashes on-chain.
- Technologies Used: Python, FastAPI, Solidity, HTML/CSS/JavaScript, Ganache, Web3.py, SQLite, SHA-256, RSA Cryptography.

CDR-IED, CDR Interpretation and Examination Dashboard

Team Size - Individual

May 2026 - June 2026

- Developed a Call Detail Record (CDR) analysis dashboard to investigate call records, reducing manual effort during digital forensic investigations.
- Technologies Used: Python, HTML/CSS/JavaScript, SQLite.

ACHIEVEMENTS

- Class Topper for the 5th Semester among 30+ students
- 1st Place, Co-Coder 2.0 Code Debugging Competition, CSI SB ICET, competing against 50+ students.
- 3rd Place, State-Level Game Development Competition with 50+ participants.
- Completed 24 CTF challenges from various domains in TryHackMe Advent of Cyber 2025 alongside 2,000+ peers.
- Technical Coordinator, CodeStorm 2026, coding competition with 30+ Participants.
- Coordinator, PixelHack CTF Competition with 30+ Participants.
- Coordinator, Co-Coder 3.0 Competition with 30+ Participants.
- Resource Person for a Scratch Programming Workshop for 35+ students.

POSITIONS HELD

- Chairman, CSI ICET SB - 2026-27
- Website Co-Lead, Cyber Wing ICET - 2025-26
- Treasurer, CSI ICET SB - 2025-26
- Finance Co-Lead, GDC ICET - 2024-25

SKILLS

- Programming Languages, Tools & Technologies,

Python C Java SQL Bash
Solidity API Splunk Burp Suite
Wireshark Nmap Autopsy
VS Code GitHub

- Areas of Interest

Cybersecurity Networks OOPS
Blockchain Cryptography
Machine Learning for Security Systems

- Soft Skills,

Leadership Communication
Teamwork Problem Solving
Analytical Thinking Critical Thinking
Attention to Detail Integrity
Time Management Research

EDUCATION

B.Tech, Computer Science and Engineering (Cyber Security)

Ilahia College of Engineering and Technology

2023 - 2027

- CGPA: 8.34/10.00

COURSES

Networking Basics

Cisco Networking Academy

- Gained foundational knowledge of networking concepts, protocols, devices, and network troubleshooting.

Metasploit from Scratch: Beginner to Professional - Master Penetration Testing and Exploitation Techniques

Udemy

- Practical knowledge on Metasploit for reconnaissance, vulnerability scanning, exploitation, and post-exploitation techniques for penetration testing.

LANGUAGES

- English | Malayalam | Tamil
